WERE you to ask us for our most popular and practical ladies' watch, we would show you a model that cost, during the war, \$75.00. It now sells for \$50.00.

Its case is heavy 14-karat gold and the movement is our full-jewelled guaranteed "Clive"—a combination that ensures many years of accurate service.

ASSOCIATION DEBATE SITE OF NEW GYM.

MacDonald Park Recommended as Suitable Site

REVISE CONSTITUTION

Eligibility Forms Must Be Filled Out for Athletics

The Athletic Association held a crowded meeting in the hall of the Union at 5 o'clock yesterday afternoon. The most important item of business discussed was the site of the new gymnasium. A lengthy discussion took place over the selection of a site most advantageous to athletic activities. Dr. Lamb, representing the Department of Physical Education, pointed out those features which in the opinion of that Department favored the selection of the proposed site in the hollow for the situation of the new gymnasium.

The Department of Physical Education believes that the future centre of student activities will be situated on the campus. In their opinion the site below the stadium is too far removed from the majority of the college buildings to permit students taking so in the one hour period allowed, ing compulsory physical training to Inter-faculty competition is carried out on the lower campus at present, and would therefore benefit by the gymnasium being situated in the hollow. Dr. Lamb pointed out that, although the erection of a gymnasium on the original site adjacent to the stadium would undoubtedly benefit fall activities, such as football, track, and harrisers, this advantage would be offset by the inconvenience caused to those participating in winter activities, for whom the stadium is inconveniently situated.

A lively discussion immediately ensued, and it was soon quite evident that the athletic body, as represented by the presidents of the various clubs, is unanimously in favor of the site originally selected.

It was pointed out that the extra time required to reach the stadium was negligible compared with the time required to change into gymnasium suits, take showers, and change back again to "civies," don overcoats, etc. So that, as far as the chief objection is concerned, viz., convenience for compulsory physical training, the site at the stadium is quite as convenient as that on the lower campus.

While the centre of student activities may be at present situated on the lower campus, future development will undoubtedly make Macdonald (Continued on Page 4.)

R.V.C. BASKETBALL IN INITIAL GAME

R.V.C. Teams Play Phys. Ed. This Afternoon

This afternoon at 3 o'clock in Molson Hall the first game of the year for the R.V.C. teams will be played against the School of Physical Education. Not much is known about the Physical Ed. teams but unless all signs fail those from R.V.C. should show up very well. Regular practice has been going on since the inter-class matches ceased on December 7 and the steady work done should count against all opponents. A large audience is requested and what is more, expected. Turn out every one and see your team play. You can give support as well by rooting as you can by playing.

The teams:

1st R.V.C.	M.S.P.E.
Shots	
H. Marshall	F. Flanagan
M. Leggett	D. Burrell
Centres	
J. Spier (J.C.)	M. Reynolds

C. Fraser	G. Newmarke

A SHORT STORY.

Chapter I—The man was calm and collected as he searched for the gas leak with a lighted match.

Chapter II—He may still be calm, but so far he has not been collected.—Finis.

WHAT'S ON

TO-DAY.

1.00—Executive meeting Snowshoe Club.
3.00—R.V.C. Hockey Practice.
5.00—Wrestling practice at Union.
5.30—Harrier Club meeting at Union.
6.00—Hockey: Med. '25 vs. Med. '22.
6.30—Junior Hockey practice in Arena.
6.30—Junior "C" vs. Engineers, Molson Hall.
7.30—Junior "A" vs. M.A.A.A. at M.A.A.A.
7.30—Intermediate "A" vs. Central "Y" at Central "Y".
8.45—Intermediate "B" vs. Victoria at Molson Hall.
8.45—Basketball: Seniors vs. M.A.A.A. Reds at M.A.A.A.

COMING

Jan. 12—Electrical Club meeting.
Jan. 12—R.V.C. Undergrad. meeting.
Saturday, Jan. 14—
8 p.m.—Basketball: Junior "A" vs. Central "Y" at "Y".
8 p.m.—Junior "C" vs. Y.M.H.A. at Y.M.H.A.
8 p.m.—Intermediate "A" vs. Highlanders at Highlanders.

CANVASS FOR STUDENTS IN EUROPE

Conditions for Students in Europe Desperate

WORTHY CAUSE

Fund is Administered to Desist Irrespective of Creed

Plans are going forward for the canvass of the student body for the purposes of relief of fellow students in Central Europe. Every student will have an opportunity to help according to his, or her, ability and willingness. No doubt some will be unable to do much, considering that the rate of exchange now makes possible the purchase of a plain meal for three Canadian cents in Europe, there are few who cannot assist substantially. There may be some who will say charity should begin with students at home! But no Canadian student will die of hunger or freeze in the streets this winter. It is to meet a need more desperate than any existing in a Canadian University, and one which involves thousands of students, that this appeal is made.

In undertaking this piece of work the Council desires to take the student body into its confidence. The appeal is made straight to the intelligence and to the generosity of all. Statements that appear in the "Daily" will be straight facts so far as they can be obtained from reliable sources. There will be no subtle propaganda for the sake of a possible paltry increase in the contribution. It is much to be preferred that the intelligence of all should be respected, and the general good will relied upon as neither are apt to fail when facts are known. And here are some facts to be noted:

This is a matter that is of direct interest to people of every race or creed, Protestant, Catholic, and Jewish. It is true that funds collected will be sent to the World's Student Christian Federation because this international organization of students is entrusted with the entire responsibility of relief for the student classes in the areas of destitution. The students assisted by the \$600,000 spent last year were of every faith and absolutely no distinction was made.

The student relief fund is pooled, and is administered from a certain office in Geneva, to points where the need is greatest. The universities of over twenty countries have given liberally in agreement with this plan, notably those of Britain, Holland, and South Africa. From the latter country last year the contribution amounted to \$400 per student for the whole student body. No appeal is made for this work by the Federation except through the Universities. If the universities fail the work will be left undone.

It is to be hoped that McGill will contribute her share.

The University of Nebraska has a woman's division of the University Chamber of Commerce. This organization is a part of the College of Business Administration.

MID-TERM EXAMS.

With the appearance of this issue the "Daily" will cease publication for the period of the mid-term exams, to resume on Monday, January 23rd.

MARIE LOHR TO SPEAK TO PLAYERS' CLUB

Informal Address by Well-Known English Actress

INTERPRETATION

To Take Place in the Reading Room of the Hall Jan. 16

All those interested in the study of dramatic art at McGill University will be glad to hear that Miss Marie Lohr has consented to speak at the next general meeting of the Players' Club. Early last October, when Mr. Anthony Princip and Miss Marie Lohr's Company were producing Sardou's "Fedora" and "Marionettes" in Montreal, Miss Lohr was advised by her Doctor not to do any public speaking, nevertheless Miss Lohr promised that, on her return to Montreal in January, she would speak to the Club.

In England, London's Theatre-going public need no introduction to one who has produced, and produced successfully, plays which, well received as they may be, yet fall short of Miss Lohr's dramatic capabilities. It would indeed be difficult to give in any one vehicle an opportunity for the expression of Miss Lohr's versatility and power, an idea of which may only be got by seeing Miss Lohr in a number of plays widely differing in character, such as the two plays mentioned above. From the Globe Theatre London to Montreal is a long "jump," but artistic ability will surely be appreciated wherever the artistic faculty exists, and the success of Miss Lohr's tour in Canada proves that that appreciation has not been lacking.

The last general meeting of this nature was a disappointment. Unfortunately the Star of the English Players Co., who was to have spoken could not do so, and the substitute, having had a few minutes notice, could hardly do himself justice. This time however we may be sure that every member of the Club, can well afford to be present Monday evening Jan. 16, at 5 p.m., in the Reading Room of Strathcona Hall.

Owing to the fact that Miss Lohr is rehearsing almost every morning and evening in addition to performances, she will have to shorten the usual time. It was very kind of Miss Lohr to remember her promise in spite of elaborate preparations for her forthcoming New York productions.

After there will be a general meeting to consider constitutional questions and suggestions such as the reading of plays etc. Admission will be by Membership ticket, which it is hoped will be distributed by that time. They may be obtained from A. T. McIntyre, Arts Bldg., or Miss A. Roy R. V. C.

CO-ED. HOCKEY IS IN FULL SWING

Inter-Class Hockey Taking Place, Intercolleg. Later

Once again a crowd of spectators gathers on Sherbrooke St. at regular intervals to watch R.V.C. "play" hockey. Practices are going on regularly now and the only puzzle seems to be which ones to attend. According to "Shag" almost anyone who knows anything about the game and practices regularly should have a fairly good chance for the inter-collegiate team since R. V. C. lost some of its best players with 1921. The class practices also are well attended and some lively shuffling is going on among the various candidates and the inter-class matches should provide considerable amusement to all comers.

Hockey is one of the best of sports and it should not be allowed to die out. Every girl who can skate should turn out to her class hockey practices and give all possible support to her manager.

FIVE THOUSAND WOMEN ATHLETES IN FRANCE

Five thousand women of France between the ages of fifteen and thirty are taking part in athletics in which men have figures mainly in the past. One hundred yards in 114-5s, 1,000 metres in 3m. 17 4-5s, stand as a joint British and French feminine record. Miss Lines of England and Mlle. Blead of France covering the respective distance, in time that would make many masculine athletes envious.

In 1900 the "Forward" feminine section of the French Sporting Federation was founded. Sixty-two members formed the original club. It now numbers 1,500. Mlle. Therese Brule of the latter club went over the 110 metres (10) hurdles in 17 1-5s, just 2 1-5 seconds slower than the world's record, held by Earl Thompson of Dartmouth.

MONTREAL, WEDNESDAY, JANUARY 11, 1922.

AN OLD STORY

Once again we have with us the mid-year examinations. Like most great events, they cast a shadow before them. This gloomy penumbra, which has a decidedly paralysing effect on most forms of undergraduate activity, was entered almost immediately at the end of the Christmas holidays, and now that this in turn has almost darkened into a total eclipse it might be well to make a brief enquiry into the subject of mid-year examinations.

As a means of weeding out the freshman year in the several faculties the otherwise disconcerting system of mid-year examinations has its undoubted uses. The University has in the past considered it judicious to harmonize the entrance requirements with the standard of teaching of the public schools. If an ideal matriculation standard could be established it is probable that the abyss between the ideal first year and ordinary sixth form would be almost unbridgable. Hence the necessity for a weeding-out process later on in the year, when the incoming class have had a fair opportunity to acquaint themselves to their new environment.

It is by no means a perfect method, of course. Any reputable psychologist can easily unmask the unsound bases and the total lack of fairness of the examination system as a whole. Unfortunately modern science has as yet discovered no practical substitute, and we must blunder along as best we may with our semi-paleolithic knowledge-gauges.

It is when examinations are applied without sufficient cause that they become irksome. Examinations for the purpose of weeding out the intellectually unfit from among the freshmen is a necessity, the same is true of the final examinations held also at this time of the year for the purpose of winding-up half courses, but what of the others?

In certain faculties all the grisly agonies of examinations are inflicted on the student to no definite end. This is not as it should be, inasmuch as it tends to narrow the scope of interest down to the rigid boundaries of the text-book and the wad of lecture notes, which already loom far too largely on the scholastic horizon on this continent.

So even the members of the "Daily" staff must seek shelter before the approaching storm. If anyone meets with bad fortune during the forthcoming week he can console himself with the contemptuous opinions of the psychologists. That is always something.

HOW TO SKI

The stemming turn is perhaps the most useful of the ski-ing turns, and an absolute mastery of it is a necessary foundation for all cross-country work.

The stemming turn is easiest on hard snow which is not too slippery to check undue side-slip. It is difficult in deep heavy snow.

To practice this turn, find some fairly gradual slope. Start with your skis horizontal, and the hill on your left. Run across the slope at a gentle angle, and as soon as you are under way, begin to stem with the lower ski. Push out the heel of your lower foot so that the skis, instead of being parallel, form an angle. The upper ski should continue to point in the direction in which you were running before starting to stem; the lower ski should be nearly horizontal. The tip of the lower ski should be close to, but an inch or two in front of, the tip of the upper ski. You are now in the stemming position.

In order to stem or reduce your speed, straighten the lower leg, and right the heel of the lower foot.

Keep your eye on the point of the tipper ski.

The more you weight the lower leg, and the more you straighten the lower leg, the greater will be the breaking effect of the lower ski. If this position is held, the lower ski will begin to turn uphill; both skis will come to a stop, and you will have accomplished a slow, uphill stemming turn to the left.

As a rule, stemming is used, not to stop, but to reduce speed. As your skis begin to slow down, you can once more regain your normal speed by reducing the weight on the lower ski, and weighting the upper ski, which should continue to point down the slope in the same direction as it was pointing before you started the turn.

By weighting the upper ski you increase your speed. By weighting the lower ski, you decrease your speed. It is quite easy to run along the slope alternately weighting the upper and lower ski and thereby increasing and decreasing alternately your speed.

The beginner usually shows great reluctance to throw enough weight on to the stemming ski. On steep slopes this can be done by leaning boldly outward from the slope. On very steep slopes, you will have to bend the upper leg very considerably in order to keep the stemming ski horizontal; in fact, on very steep slopes, you may have to lift the heel of the upper foot and almost sit on the upper ski, while keeping as much

UNION CAFETERIA HAS BIG SUCCESS

Suggestion to Have Second Dining Hall

The drop in prices made effective at the Union Cafeteria has caused a large increase in patronage. In fact, today saw a bread-line stretching out into the corridor. It is an assured fact that the students wanted the decrease, and that they appreciate the meals served. There is one drawback, the difficulty in getting served quickly. The fact that they might have to wait in line for any length of time is bound to keep a large number of students away. There is a way to satisfy even these students, however. The other dining room could quite easily be put into use. It is not required for any training table. A system such as in use at the Wesleyan dining room could be used. There are certain steady patrons of the cafeteria who could be issued commutation tickets which they could use in the other dining room. They could either be served by waitresses (an added expense but one that would be overcome by the increased patronage in both dining rooms) or have a posted menu from which to order. A small table could be placed in the doorway between the dining room and kitchen over which the food could be ordered and taken. The ticket could be punched by either a maid or if the other system was used by the person taking the order. This plan might at least be considered and possibly tried out.

Mr. Straus—Gimme a long sentence.
Simon—Imprisonment for life.

weight as possible on to the stemming ski.

A most important point in stemming is to keep the points of the skis close to each other, the lower ski slightly ahead of the upper ski, as in all swings and turns the skis will tend to run together if you do not resolutely control this tendency.

To stop quickly by a pure stem on the level is very difficult and clumsy. It is also difficult, if not impossible, to stop on a slope by stemming when travelling at a high speed. Stemming is mainly useful for controlling your speed when travelling at a moderate pace on steepish slopes. The turn must be thoroughly mastered, as it is the key to other turns and swings.

HARRIERS TO MEET AT THE UNION TODAY

Plans to Be Discussed for the Year

ELECT OFFICERS

Interclass Competition Urged to Develop New Material

Today in the Union, at 5.30 p.m., the annual meeting of the Harrier Club will take place. As the executive for the season 1922-23 will be elected at this meeting, it is essential that every man at all interested in long-distance running should be present to see that the best men are elected.

Interclass runs will be featured next fall in an endeavor to develop new material, which is necessary to curb Toronto's run of victories during the past two years.

At home next year, the McGill team must make an extra effort to place a winning team on the course. Difficulty has been experienced in the past to replace the stars of former years who have graduated or retired from competition. There are many men in college naturally united to this branch of athletics, and they must be encouraged to turn out. Interclass competition seems to be the best manner possible to induce added competition.

Not only are those men who took part in the harrier work last fall asked to attend the meeting, but any student at all interested in the club's activities is asked to turn up at the Union this afternoon.

Harrier runs hold an important place in college activities at all the larger universities, both on this continent and in Europe.

The annual Oxford-Cambridge cross-country run is one of the principal events in the sport calendar in England. One of the greatest honors a student may obtain at the great English universities is to win his "blue" on the cross-country team.

In the United States, the annual intercollegiate cross-country run arouses great interest in the athletic world across the border. For years past Cornell has carried off the honors, and last year sent a team over the Atlantic to compete with a combined team from Oxford and Cambridge.

In view of the growing popularity of international intercollegiate competition, it is hoped that in the near future international harrier runs may be arranged with some of the American universities.

SCHOLARSHIP FOR UNIVERSITY WOMEN

Federation of University Women Offers Scholarship

Particulars have been received by Miss Hurbatt concerning the Scholarship of the Federation of University Women in Canada. This scholarship, of the value of \$1000 and available for study or research work, is open to any woman student holding a degree from a Canadian University. The award of the scholarship is based upon evidence of character and ability of the candidate, and in general, preference is given to those candidates who have completed at least one or two years of graduate study.

All applications must be in by February 15th, so they are made by letter to the Convener of the Scholarship Committee. Further details concerning address of Convener, also concerning necessary procedure and required recommendations can be obtained from the Warden of the Royal Victoria College, who will be glad to furnish any information she can.

For the past couple of years there has been a marked increase in the number of women students taking up Post-graduate studies at McGill. This offer is an excellent chance for some of them, and deserves full consideration.

BASKETBALL TEAMS PLAY TWO GAMES

Seniors and Juniors Play at M.A.A.A. Tonight

Tonight McGill basketball honors are at stake, not once, but twice, when the Juniors and Seniors invade the Peel Street encampment. The Juniors play the Y.M.H.A. at 7.30, while the Seniors go on the floor for what is expected to be the fastest game to date when they meet the M.A.A.A. Reds at 9.30. Between these two games the M.A.A.A. Blues will play Central Y.

The Juniors are going great and should certainly pull down a victory. While not underestimating the strength of the enemy they have no lack of confidence in themselves and go on the floor prepared to meet all resistance and be on the long side of the score at the final whistle.

The Seniors are meeting the Reds for the first time this season tonight. To date the Seniors have played three games each of which was a decisive victory; but tonight they are

PEPYS AT MCGILL

Tuesday, January, 10th. I find that I am not alone in my prodigious aversion to the ungilded goloshes of cloth worn by certain among our women students, for it must be that some among my fellowes have remonstrated with them, as I noticed this day that the great body of them upon the Campus went about decently attired once again. I come more and more to think that the language of the people of these parts, though but a gross jargon smacking only of our king's English, is yet most vigorous and expressive of the profounder sort of emotions proper to all men, for discarding this day on the same troublesome subject of goloshes with no less a personage than the Lord President of the Guild of the Students-at-Arts he gave a most concise and meaty epitome of his persuasion in this matter by saying, "It looks like the devil." What a most excellent sentiment, for so indeed I think it does, though it would take me a vast great space in my journal to say so. Home after my discourses about mid-afternoon and passing to my lodgings by Sherbrooke street I saw a great herd of the populace gazing in a most car-like manner at the playing at hockey of some of the women students clad this time in white wollen smocks. Such a concourse of vehicles of every kind with their attendant jehus that I had much difficulty in forcing my way by without coming to hurt. A great noise now bruited about among the students of these colleges, which would have it that the Department of Physical Education, who seem to be as puissant almost at the Lord Governors themselves, are desirous of placing their new "James," at it is called, in the hollow place on the campus, which thing, all men do maintain, is most utterly absurd. But I will not be troubled by these weighty affairs at this time with the nearness of the examinations, and so come to the pleasant drinking of a little cool ale for the tranquilizing of my mind.

Bing: What's an illusion?
Bang: A good meal for forty cents.

meeting a group of men who will thoroughly test their metal. The game is expected to start fast and maintain a terrific pace throughout. Hoy will be playing his usual game at centre. It is not certain whether Little will be in the game or not as his ankle is still weak and should not be used too energetically. Manson, Loy, Laishley, and Mendelson, are putting up some neat team work and as team work is going to win the game we look to them to keep the edge on the Peel Street shooters.

PRACTICE AT ARENA WITH THE U.A.A.A.

Intermediates and Seniors Have Practice with U.A.

FINE SHOWING

Intermediates Are Coming Along Fast

The Senior and Intermediate hockey teams put through a very snappy practice with the U.A.A.A. at the Mount Royal Arena last night. Owing to the examinations being so near most of the Senior squad was absent but the Intermediates showed up well and "Shag" can see a vast improvement in their playing. Prospects for filling up the vacant spaces in the Senior team are not to be feared if the Intermediates can put up as good a showing as Jack Lynch has been doing lately. His playing last night has already started a topic for discussion.

The Junior squad are ordered out to practice at the Mount Royal Arena tonight at 6.30 p.m. They will have the ice all to themselves so every player is asked to be on hand at the appointed time.

STUDENTS' COUNCIL OPPOSE GYM. SITE

Resolution Favoring Site on MacDonald Park is Passed

The Students' Council has decided to take a hand to oppose the decision recently arrived at in the Board of Physical Education to advise the Board of Governors to build the proposed gymnasium in the Hollow on the Campus. The decision arrived at by the Student's Council was that the gymnasium should be built in MacDonald Park near the Stadium and this proposition has been made into a resolution and signed by the president of every athletic club at the university and a copy of the resolution has been sent to the principal with the suggestion that a delegation representing the Students' Council be allowed to attend the meeting of the Board of Governors who assemble on Thursday to consider the site of the proposed gymnasium.

There is much discussion on the student body about the most desirable location for the gymnasium with a decided majority favoring the MacDonald Park. A "Daily" reporter made some careful investigations with a stop-watch, and found, that it takes only 6 min and 23 secs. from the Physics Building, the furthest removed of all buildings on the campus to the entrance of the Stadium. This should remove all doubts and arguments as to distance concerning the proposed site for the gymnasium.

THINK!!
Never in the History of our Business Career have we been so favored by the Students of McGill.
We appreciate your patronage and solicit a continuance of same.
Our aim is to please and satisfy.

CLASS HOCKEY TIME-TABLE IS NOW REVISED

Class Managers to Appoint
Neutral Referees

SPECIAL HOURS

All Games to Be Played Be-
tween 5 and 7 P.M.

Owing to the fact that the hours of 5 p.m. to 7 p.m. daily have been allotted for the games in the Inter-class League it has been necessary to rearrange the practice schedule. Attention is drawn to the fact that there will be absolutely no practices during the above hours on the Campus rink.

The practice schedule now in force will be as follows:

MONDAY
Campus Rink
12.00-1.00—Dent. '25.
1.00-2.00—Med. '27.
2.00-3.00—Arts '25.
3.15-4.15—Law '24.
4.15-5.15—Dent. '24.
Ladies' Rink
3.10-4.10—Arts '24.
6.10-7.10—Sci. '25.

TUESDAY
Campus Rink
10.00-11.00—Com. '23.
3.15-4.15—Arts '22.
Ladies' Rink
4.10-5.10—Sci. '24.
5.10-6.10—Med. '25.
6.10-7.10—Dent. '22 and '23.

WEDNESDAY
Campus Rink
10.00-11.00—Med. '26.
12.00-1.00—Arts '25.
1.00-2.00—Med. '27.
2.00-3.00—Arts '23.
3.15-4.15—Com. '24.
4.15-5.15—Med. '25.
Ladies' Rink
5.10-6.10—Med. '22.
6.10-7.10—Law '22 and '23.

THURSDAY
Campus Rink
10.00-11.00—Com. '23.
12.00-1.00—Sci. '25.
2.00-3.00—Arts '24.
3.15-4.15—Com. '22.
Ladies' Rink
4.15-5.10—Dent. '24.
6.10-7.10—Med. '23.

FRIDAY
Campus Rink
11.00-12.00—Com. '22.
2.00-3.00—Dent. '25.
3.15-4.15—Med. '26.
4.15-5.15—Com. '24.
Ladies' Rink
6.10-7.10—Sci. '23.

SATURDAY
Campus Rink
10.00-11.00—Arts '23.
11.00-12.00—Arts '22.
1.30-2.15—Sci. '22.
2.15-3.00—Med. '24.
3.15-4.15—Wesleyan.
4.15-5.15—Sci. '24.

Any class wishing to change hours or to obtain additional ones should notify the manager either by letter or personally at the Union between one and two any day. This schedule will remain in force until further notice.

It has been decided to adopt the system of appointing referees from neutral faculties for each game. The class managers will appoint these referees and will obtain the most capable men possible. It is only with the co-operation of everybody that we may hope to make this a successful season.

The duty roster of referees is as follows:

The class manager of Com. '23 will appoint two referees for Monday 5.15 to 6.15 and two referees for Thursday 5.15-6.15.

The class manager of Sci. '23 will appoint two referees for Monday 6.15 to 7.15.

The class manager of Med. '23 will appoint two referees for Tuesday 5.15 to 6.15.

The class manager of Sci. '25 will appoint two referees for Tuesday 6.15 to 7.15.

The class manager of Arts '24 will appoint two referees for Wednesday from 5.15 to 6.15.

The class manager of Arts '23 will appoint two referees for Wednesday 6.15 to 7.15.

The class manager of Dent. '24 will appoint two referees for Thursday 6.15 to 7.15.

The class manager of Med. '24 will appoint two referees for Friday 5.15 to 6.15.

The class manager of Law '24 will appoint two referees for Friday from 6.15 to 7.15.

The class manager of Arts '22 will appoint two referees for Saturday 12.30 to 1.30.

This duty roster will hold good for the week of January 9 to 14 inclusive. The referees will draw whistles from Mr. Joe Foubert at the rink and will return same after game.

The duties of the referees will be as follows:

1. He shall have full charge of game and shall be responsible to the manager that all rules are strictly enforced.
2. He shall appoint two timekeepers and two goal judges.
3. He shall see that the cards supplied are properly filled out and handed to him before each game. No team shall be allowed to play until such card is filled out.
4. He shall record or cause to be

MEDICINE '24 WIN GAME BY DEFAULT

Medical Juniors Make Third
Round in Easy Fashion

By an unfortunate coincidence Med. '27 were forced to default their game last evening to Med. '24 and in so doing were eliminated from any chance they had of winning the class championship. The executive of the club however have the satisfaction of knowing that the default was unintentional, which makes up to some extent for their non-appearance. It is very unfortunate under the circumstances as Med. '27 had not up to the time lost a game and their chances seemed very bright for at least a place in the final games.

Medicine '24 however have a snappy and hard working team and they also had a good chance of finishing on the right side of the score so that it is up to them to demonstrate to the other teams that they deserve their place in the third round by going through to the finals.

As this is the last issue of the Daily for some little time no further notification of the practices will be given for when the McGill Reds will go into action the City League teams. The first game is scheduled to be played on Jan. 24th against the McGill Whites, and as the two teams have to be chosen before that date, those turning out on the below mentioned dates will stand the best chance of catching a place.

Practices will be held at the High School between the hours of 6 and 7 on the following dates:—January, 13th, 17th, 18th. Everyone interested should be out to at least one or two of the practices and attendance will be taken for all first and second year men present.

After the completion of the second round of the Interclass baseball league no further games will be played until the mid-year examinations are over. This will mean that the third round will not commence until January 25th when the six remaining teams will fight it out for the championship.

recorded on the said cards all particulars as to goals scored and by whom, and as to penalties given to players.

5. He shall hand such cards to the manager or his assistant or in the case of absence of either of the above to Mr. Foubert at the end of the game.

6. He himself must sign these cards and cause his assistant to sign also.

7. He may if he deems fit for any just cause declare a game forfeited. This ruling however to be subject to the approval of the manager.

The manager or one of his assistants will endeavor to be present at every game but in their absence the referee has absolute control over the conduct of the game.

5.15-6.15—
Mon. 9th. Sci. '23 vs. Sci. '22.
6.15-7.15—

6.15-7.15—
Med. vs. Dent.

The games to be played during the first week are to decide the champion class of each Faculty. The final in each Faculty will be between the two winning teams of that Faculty. The games scheduled for Thursday the 19th. and Friday the 20th. will be between the champion class teams of the various Faculties.

This is the last issue of the "Daily" and class managers are requested to note the information above, as it will be impossible to publish anything for the next ten days.

The game between Law '22 and '23 and '24 which was not played Monday night must be played off before Wednesday the 18th or the faculty will be eliminated from the schedule.

C. S. ELDERKIN,
Manager Class Hockey.

DON'T DO IT

Take a lot of poison,
Mix with plenty steam;
Use your little hammer,
You'll have a losing team.

Demonstrating parachutes for the aerial equipment company is a hazardous occupation. A demonstrator in Dayton jumped from a plane several times in attempting to prove that he could safely jump from a plane no matter what position or trouble the ship might be in.

THETA DELTA CHI DEFEAT A.D.P.

Inter-Frat. Hockey Schedule
in Two Sections

Theta Delta Chi won a decisive victory from Alpha Delta Phi last night. The final score was 7-2. Both teams started at a fast pace which, incidentally, was not continuous throughout. The 'Thets' had marked superior combination and talked five times in the first half. Both teams scored twice in the last period and the play was also more even. Cantley scored four goals for the winners and G. H. Rochester, Wetmore and McNaughton each one. Marpole scored both losers' goals. Frederick played the steadiest game and was easily the most consistent player on the ice.

The teams:—
Theta Delta Chi Alpha Delta Phi.
Goal Defences
W. L. Rochester Thompson
G. H. Rochester Hall
Wetmore Thompson
Cantley Chisholm
Mellon Douglas
McNaughton Frederick
Subs.
B. C. Rochester Cashin
McClare Segram
Robinson Poorit
Annable Marpole
Referee: Thompson.

SCI '25 WINNERS IN HOCKEY OVER SCI. '24

Science '25 emerged with the long end of the score in a scheduled game in the inter-class hockey series with Science '24. The game was an interesting game to watch. Science '25 scoring all their goals in the first period and Science '24 waging an uphill fight that netted them three goals in the final period.

For Science '25 G. J. Moore was responsible for three counts and L. Crepeau for the fourth while A. James, McGillis and J. Fairbairn scored for the '24 team. Both teams had plenty of fight and speed in their game and there was plenty of hard checking. The new penalty rule seems to have worked a charm in the interclass games and the games are not marred by the roughness that was the feature of class games in the past years. Not a single penalty was handed out in the game. Campbell and Main, both of Med. '23 handled the game quite satisfactorily.

The line-up was picked from the following men. Science '25: R. Bucland, A. H. Bourne, G. J. Moore, W. Kyde, J. W. Maie, R. Whittall, F. W. Miller, L. Crepeau, A. Gilmour and Saunders. Sci. '24:—J. E. Dion, G. H. Gillett, W. F. Findley, A. L. Foy, A. James, A. O. Leslie, Burroughs, McGillis, J. Fairbairn and Rochester.

May Bell passed out from extreme distress. The shoulder strap broke On her evening dress.

Liggett's All-Cream Ice-Cream

Ice Cream, when properly made is one of our most nourishing and wholesome foods. Liggett's Ice Cream is all of that and is made under the strictest sanitary precautions from pure cream, best granulated sugar and pure fruits, in our modern day-light Factory. Liggett's Ice Cream is obtainable at our Soda Fountains and Tea Rooms, also in pint bricks to take home and give the family a treat.

FIFTH YEAR MEDS. TRIM FIRST YEAR

Close Game in Inter-Class
Tournament

In a spectacular game last night, Med. '23 defeated Med. '27 at hockey to the tune of 2 to 0. The game was fast right to the finish, with the Reds dominating the ice for the first period. Nevertheless Brown, the goal-tender for the yearlings was on the job and prevented any scoring until Parlow made a lone dash up the ice and swept in a difficult shot from the side. This was the only point scored during the first period.

The second period opened with a concerted onslaught on the part of the Whites upon the Reds' territory. This period was if anything faster than the first as the freshmen bombarded Cook in goal. He always managed, however, to interpose some part of his body or equipment before the threatened part of the net and thus prevented Med. '27 from scoring. The play then shifted to the freshmen's territory where Brown, like Cook, covered himself with glory in blocking difficult shots. He was fooled once again, however, when Parlow slammed the puck into the corner of the net upon a rebound.

Parlow and McElligott starred for the winners, while for the losers McAvoy, Galipeau and Quackenbush were all equally good. Both goal-tenders were excellent and performed their full share in keeping the scores so low.

The line-up was as follows:
Reds (Med. '23) Whites (Med. '27)
Goal Defences
Cook, M. Brown, J. L.
McElligott, D. C. Quackenbush, H. A.
Ackman, D. McNally, J.
Forwards
Main, H. V. Galipeau, J. A.
Lawson, W. J. McAvoy, J. E.
Parlow, A. L. De Haitre, L.
Subs.
Foster, J. G. Brown, H. C.
Dyer, F. M. Little, W. S.
Gillson, R. E.
Davis, H.
Managers
F. W. Shaver L. J. Adams
Referees: B. P. Nutting, L. McGillis.

NOTICES

HARRIER CLUB MEETING.
The annual meeting of the Harrier Club will take place in the Union on Wednesday, Jan. 11, at 5:30 p.m., at which the election of officers for 1922-23 will take place.

R. V. C. UNDERGRADUATE SOC.
There will be a short meeting of the R. V. C. Undergraduate Society on Thursday, January 12th at 1 P. M., in the Common Room to decide about the Gym. Demonstration. As the meeting will only last a few minutes, it is hoped that all who possibly can, will attend.

SNOW-SHOE CLUB.
There will be a meeting of the Snow-Shoe Club executive in the Union on Wednesday at 1 P. M. The following men are requested to be present: Simpson, Davies, Creelman, Egerton.

The Ski jump at the Stadium will be open to Students commencing Saturday Jan. 14th and from that date will be under the control of the McGill University Ski Club.

C. D. Fraser,
Secretary, Students' Council.

JUNIORS
All Juniors who have not had their pictures taken for the Annual, will please visit the Photograph Studio, St. Matthew and St. Catherine St. IMMEDIATELY.

The following is the schedule for class Pictures for the Annual:
Wednesday, 9. Dentistry '22.
Wednesday 10. Dentistry '25.
Wed. 12. Dentistry '24.
Wed. 1. Science '24.
Wed. 1. Arts '24.
Thursday 1. Science '22.
Friday 9.30 Law '22.
Fri. 9.30 Law '22.
Saturday 1. Science '25.

SKI CLUB ATTENDANCE.
In order that students of the First and Second years may avail themselves of the privilege of getting their attendance for compulsory exercise by skiing at other than the old hour of from 3 to 4 o'clock, a new system is being tried this year. A box has been placed on a tree just over the rise of ground across the road at the Lookout. In it are placed a pencil and a sheet of paper which will be removed daily. Sign your name and give your year.

The club asks for co-operation to make this system a success by each man signing only his own name as this is the only condition under which it can be used.

ELECTRICAL CLUB.
Mr. Eugene Vinet, secretary of the Canadian Electrical Association, has kindly consented to exhibit films of great interest to electrical engineers at a meeting of the Electrical Club to be held in Room 54 of the Engineering Building on Thursday, January 12, at 5 p.m.

GLEE CLUB.
The usual practices will be held every Monday night at seven o'clock in the ball room of the Union. Please bring your music and come sharp on time so that the practice may finish at the promised hour. The concert will be given in the Union on Sunday, the 29th, at 4 o'clock, so all out to the practices before that date.

MED. '22-MED. '25 GAME.
Will the following men of Med. '22 turn out for game at Old Campus rink at 6 p.m. today: Cooper, McCormick, Naud, Watson, Wells, McIntosh, Imbleau, Kinsman, McNabb, O'Shaughnessy.

JUNIOR HOCKEY.
There will be a hockey practice for the Junior squad at the Mount Royal Arena tonight at 6:30. Juniors will have ice to themselves, everyone to attend.

SECRETARY'S OFFICE.
The presidents of the Arts, Law and Dentistry Undergraduates Societies, the president of the Commercial Society, the presidents of the Gymnastic, Tennis, Snowshoe Clubs, and the vice-president of the Ski Club are urgently requested to call at the office of the secretary, Student's Council, before 1:30 today.

R.V.C. HOCKEY.
There will be a practice for all hockey players on the rink in the Hollow at 3 p.m. today, Wednesday. Will everyone please turn out?

ATTENDANCE.
Any outstanding attendance for the first term must be left at the office of the Department of Physical Education by January 14, 1922.

SUSPENDED GYM.
The regular gymnasium classes for students of the first and second years will be discontinued Friday, January 13, and will be resumed on Monday, January 23.

PHOTOGRAPH.
The executive of the McGill English Rugby Club will be photographed immediately after the team. All members are requested to be at Notman's at 5:30 p.m. sharp.

ATTENTION!
The following men are requested to turn in their certificates of eligibility to George Currie not later than Thursday, the 12th: Misky, Wilson, Graham, Champion, Boucher.

ASSOCIATION DEBATE SITE OF NEW GYMNASIUM

(Continued from Page 1.)

Park the centre of student recreational activities. The proposed dormitories and arena will, it was stated, be situated there, and will make the site now occupied by the stadium a busy spot indeed.

Flanagan pointed out that at present basketball, swimming, polo, indoor baseball, boxing, wrestling and fencing, the chief winter activities, are carried on at various places such as the Y.M.C.A., Highlanders' Armory, Union, Molson Hall and High School gymnasium, so that their centralizing influence is not felt. Should the gymnasium be built, however, it would undoubtedly become the centre of athletic activities, whether situated on the lower or upper campus. If built on Pine avenue, however, it would also become the headquarters of the track, football and harrier clubs, whose present accommodations are entirely inadequate.

McLagan pointed out the benefits the football club would derive from having suitable dressing rooms, showers, swimming pool and training quarters. The present dressing rooms reflect sadly on McGill's hospitality to visiting teams, and are altogether unfit to provide the necessary facilities to the large squad of men turning out for football, track and harriers.

It was pointed out, also, that it was very unlikely that the board of governors would feel justified in undertaking the building of both a gymnasium and suitable dressing rooms at the stadium.

As a result of this lengthy debate, a motion was submitted to the effect that the McGill Athletic Association place itself on record as favoring, in the interest of athletic activities at McGill, that the new gymnasium be erected in Macdonald Park, adjacent to the stadium.

Hamilton requested that the presidents of all clubs make certain that eligibility forms are filled out for every man taking part in league competitions. A great deal of trouble arises when men are played who have not filled out these forms, and in future men must do so before competing in any games.

A committee was formed consisting of J. C. Flanagan, D. B. Tees and President Hamilton to revise the constitution of the Athletic Association.

This work will be carried out in the near future, and will principally affect athletic awards.

The B.W. & F. requested a grant for the repairing of wrestling mats, which was granted.

H. Wilson, Sec. '24, was granted permission to play basketball with the Argonaut team of the Junior City League.

The presidents of all athletic clubs are asked to submit information regarding games, plans, practices, etc., to the Daily in order that proper prominence may be given athletic competition around McGill through the best medium possible.

ALAS!

He sat stony-faced in his little attic room with the falling snow sitting in through the chinks of the window-frame. All about him was desolation. For days he had not eaten even a crust of bread, and now he sat with his elbows on his knees, his starved grey face rooking between his clenched fists. From time to time a low, half-strangled moan escaped from his thin lips. Then with a harsh cry he staggered to his feet, tottering as he rose. He was a Junior. He had forgotten to have his picture taken at the Photograph studios at the corner of St. Catherine and St. Matthew Streets, and now his mangled conscience would not let him rest. Beside him in a livid heap lay the huddled, desolate form of his room-mate, also a Junior, he had forgotten for days past to fill out the biography-form given him by his class representative. But let us draw a curtain over this horrid scene.

BASKETBALL

There will be no more Junior and Intermediate basketball practices until Monday, Jan. 23, as Molson Hall is being used for Arts examinations.

Junior "C" play Engineers at Molson Hall, Wednesday, Jan. 11, at 7:45 sharp.

Junior "A" play M.A.A.A. at Peel St. Wednesday, Jan. 11, 7:30 sharp.

Intermediate "B" play Victoria at Molson Hall, Wednesday, Jan. 11, at 8:45 p.m.

Intermediate "A" play Central "Y" there, Wednesday, Jan. 11, at 7:30 p.m. sharp.

Junior "C" play Y.M.H.A. there Saturday, Jan. 14, at 8.

Junior "A" play Central "Y" at Y.M.C.A. Jan. 14, 8 p.m.

Intermediate "A" play Highlanders there on Saturday, Jan. 14, 8 p.m.

PLAYERS' CLUB

There will be a general meeting of the Players' Club next Monday, January 16th, at 5 p.m. sharp, in the reading room of Strathcona Hall. After Miss Marie Lohr has addressed the meeting there will be some questions and suggestions to be dealt with. All members are strongly advised to be present if possible as in addition to what Miss Lohr has to say to the club, there will be important business which can only be dealt with properly if a great majority of the club are present.

INTERESTING MEETING OF OSLER SOC.

Medicos in Regular Session at Prof. Whitnall's Residence

TWO PAPERS

Alward and Tidmarsh Read Instructive Papers

The regular monthly meeting of the Osler Society was held at Professor Whitnall's residence on Monday evening. The guests of the evening were Dean Finley, Professors Chipman and Oertel.

After the preliminary business two excellent papers were read—one on "Egyptian Medicine" by H. C. Alward and one on "Quackery" by C. J. Tidmarsh.

Mr. Alward dealt with first, a brief outline of the history of Egypt from the 1st Dynasty, the line of rulers governing successively, about 400 B.C., down to the comparatively modern time when Egypt was taken over as a Roman province by Octavianus, thus terminating Cleopatra's disastrous reign. A description of the finding of the Rosetta Stone, followed, and mention was made of its translator, J. F. Champollion, who since 1802, when he was only eleven years old, devoted all his energies wholeheartedly to the solution of this Egyptian puzzle, by wide linguistic and historical studies.

In 1822 he was able to make many equations between the characters on the stone. His progress continued unchecked and before the end of the year the connection of ancient Egyptian and Coptic the popular language of early Christian Egypt, was clearly established. Mention was made also, in this connection, to Dr. Thomas Young (1773-1829), this brilliant Englishman of Science, who did so much towards laying the foundations for the translation of the Rosetta Stone.

Egyptian medical procedure and treatment was contained in the sacred or Hermetic Books of Thoth, the moon god, who was the special deity of medicine. To deviate from the recipes of the sacred books was regarded as so dangerous that the physician who did so, and whose patient died, was himself punished with death. If, however, the patient died under treatment given according to the sacred book, the physician was not held responsible. Public hygiene and sanitation were established upon a remarkably thorough scale.

The physicians all belonged to the priesthood in whose hands all learning was entrusted. Some practised the therapeutic part of their medicine, counteracting charms by prayers, and to the interpretation of the dreams of the sick who sought aid in the temples. Other practised their art simply using natural means.

Their knowledge of Anatomy and Physiology was very hazy, as it was considered a sacrilege to open the human body. They thought that illness was due chiefly to overeating or worms. Mysticism placed the various parts of the body under the domain of certain deities and these parts were subject to the baleful influence of evil spirits. Little is known of Egyptian surgery, but there is ground for the belief that in this they achieved much. Obstetric medicine lay in the hands of midwives.

The Ebers Papyrus throws the greatest amount of light on their medical knowledge. It was obtained by Ebers in 1872 after it had lain between the legs of a mummy for nearly 4000 years. It contains a description of a large proportion of the diseases known to modern medical science. Not only diseases producing suffering to mankind claimed the Physicians' care in those days, but he had also to consider the toilet. Seventy-four prescriptions pertain alone to hair washes, dyes and oils. Over seven hundred different substances from the animal, vegetable and mineral kingdom are mentioned, with their action and merits.

The paper terminated with a description of the illness, death and embalming of an Egyptian official.

Mr. Tidmarsh commenced with a definition of quackery and then enumerated some of the more important causes. These were—first, man's primeval instinct to live, as expressed in his desire to be free of all pain and to enjoy always, the vigor of youth. Second, religion. Quackery always flourishes in an atmosphere of superstition, and the mystical charm, the origin of which, in charms, spells, and amulets, goes as far back as the beginning of human history. Third—cranks who prefer loud, confident, statements to the honest and cautious efforts of science. Fourth—the uncertainty of medicine, which appears much greater than it really is to the superficial observer who sees the failures of medicine but knows nothing of its successes. Fifth—the boundless field of human credulity.

Mr. Tidmarsh then dealt briefly with the history of quackery, pointing out that until some legal qualification for the practice of medicine was demanded, the dividing line between the regular practitioner and the quack, is very indistinct. In Greece and Rome there were no regulations and quackery flourished like a foul weed, the Greek period giving rise to the "professors of physical culture" and the herbalist. In the early Middle Ages medicine was in the hands of priests and illiterate quacks, but in the 14th Century the University of Paris endeavored to suppress quackery by sentences of excommunication on offend-

AMBITIOUS GUNMAN MENACE TO MEDICO

Dental Grad. Brings Relief to Victim's Dental Organ

On the evening of January 9th at about ten o'clock, a well known member of Med. '23 while coming up University St. near St. Catherine with a co-ed on his arm was accosted by a man, presumably a beggar, who politely requested him to "throw up his mitts." On refusing he was dealt a blow on the mouth which removed a front tooth and likewise stunned him. Due to the co-ed's screams, however, the would-be foot pad discreetly vanished.

A graduate of Dent. '21, residing at 364 University St., who was then leaving his office, immediately administered relief to the broken dental organ. The bashful Romeo, who was not seriously injured, refused to divulge his name beyond admitting that he was a member of Med. '23.

Says a co-ed: "Queen Elizabeth was a wonderful woman; she could lie beautifully."

ers. This had little effect. During this period families of quacks specialized in one operation and from Louis XI to the middle of the 18th Century, the Callot family operated for lithotomy and were operators to the Kings of France.

The 18th and 19th Centuries were reviewed by considering the lives of notable quacks—Sir William Aend, first a humble tailor and then an "oculist," to Queen Anne—the Chevalier Taylor a mountebank eye doctor, Joshua Ward inventor of the famous Wards' Drugs and Pills who was exempted by name from the operation of the Apothecaries' Act passed in 1748—Joanna Stephens whom the English Parliament paid £5000 for the formula of her "cure" for stone—Elisha Perkins famous for the metallic tractors he invented—Count Cagliostro made famous in Alexander Dumas—"The memoirs of a Physician" and finally John St. John Long—an artists' studio assistant who set out to cure tuberculosis. His annual income amounted to £65,000, but his cure when known was found to consist of turpentine, acetic acid and egg yolk.

M. Tidmarsh concluded his paper by referring to the prevalence of quackery at the present time and the need for a determined effort to suppress it.

Dean Finley and Prof. Oertel spoke briefly on the value of the Society and expressed the hope that it would stimulate interest among all medical students in the subjects discussed.

Here Are Your Sweaters Men!

The most attractive line of McGill sweaters in several seasons is on our shelves today ready for the big autumn season.

There are coats with plain or shawl collars, and good heavy pull-overs.

NOTICES

HARRIER CLUB MEETING.
The annual meeting of the Harrier Club will take place in the Union on Wednesday, Jan. 11, at 5:30 p.m., at which the election of officers for 1922-23 will take place.

R. V. C. UNDERGRADUATE SOC.
There will be a short meeting of the R. V. C. Undergraduate Society on Thursday, January 12th at 1 P. M., in the Common Room to decide about the Gym. Demonstration. As the meeting will only last a few minutes, it is hoped that all who possibly can, will attend.

SNOW-SHOE CLUB.
There will be a meeting of the Snow-Shoe Club executive in the Union on Wednesday at 1 P. M. The following men are requested to be present: Simpson, Davies, Creelman, Egerton.

The Ski jump at the Stadium will be open to Students commencing Saturday Jan. 14th and from that date will be under the control of the McGill University Ski Club.

C. D. Fraser,
Secretary, Students' Council.

JUNIORS
All Juniors who have not had their pictures taken for the Annual, will please visit the Photograph Studio, St. Matthew and St. Catherine St. IMMEDIATELY.

The following is the schedule for class Pictures for the Annual:
Wednesday, 9. Dentistry '22.
Wednesday 10. Dentistry '25.
Wed. 12. Dentistry '24.
Wed. 1. Science '24.
Wed. 1. Arts '24.
Thursday 1. Science '22.
Friday 9.30 Law '22.
Fri. 9.30 Law '22.
Saturday 1. Science '25.

SKI CLUB ATTENDANCE
In order that students of the First and Second years may avail themselves of the privilege of getting their attendance for compulsory exercise by skiing at other than the old hour of from 3 to 4 o'clock, a new system is being tried this year. A box has been placed on a tree just over the rise of ground across the road at the Lookout. In it are placed a pencil and a sheet of paper which will be removed daily. Sign your name and give your year.

The club asks for co-operation to make this system a success by each man signing only his own name as this is the only condition under which it can be used.

ELECTRICAL CLUB
Mr. Eugene Vinet, secretary of the Canadian Electrical Association, has kindly consented to exhibit films of great interest to electrical engineers at a meeting of the Electrical Club to be held in Room 54 of the Engineering Building on Thursday, January 12, at 5 p.m.

GLEE CLUB
The usual practices will be held every Monday night at seven o'clock in the ball room of the Union. Please bring your music and come sharp on time so that the practice may finish at the promised hour. The concert will be given in the Union on Sunday, the 29th, at 4 o'clock, so all out to the practices before that date.

MED. '22-MED. '25 GAME
Will the following men of Med. '22 turn out for game at Old Campus rink at 6 p.m. today: Cooper, McCormick, Naud, Watson, Wells, McIntosh, Imbibeau, Kinsman, McNabb, O'Shaughnessy.

JUNIOR HOCKEY
There will be a hockey practice for the Junior squad at the Mount Royal Arena tonight at 6:30. Juniors will have ice to themselves, everyone to attend.

SECRETARY'S OFFICE
The presidents of the Arts, Law and Dentistry Undergraduates Societies, the president of the Commercial Society, the presidents of the Gymnastic, Tennis, Snowshoe Clubs, and the vice-president of the Ski Club are urgently requested to call at the office of the secretary, Student's Council, before 1:30 today.

R.V.C. HOCKEY
There will be a practice for all hockey players on the rink in the Hollow at 3 p.m. today, Wednesday. Will everyone please turn out?

ATTENDANCE
Any outstanding attendance for the first term must be left at the office of the Department of Physical Education by January 14, 1922.

SUSPENDED GYM.
The regular gymnasium classes for students of the first and second years will be discontinued Friday, January 13, and will be resumed on Monday, January 23.

PHOTOGRAPH
The executive of the McGill English Rugby Club will be photographed immediately after the team. All members are requested to be at Notman's at 5:30 p.m. sharp.

ATTENTION!
The following men are requested to turn in their certificates of eligibility to George Currie not later than Thursday, the 12th: Misky, Wilson, Graham, Champion, Boucher.

ASSOCIATION DEBATE SITE OF NEW GYMNASIUM

(Continued from Page 1.)

Park the centre of student recreational activities. The proposed dormitories and arena will, it was stated, be situated there, and will make the site now occupied by the stadium a busy spot indeed.

Flanagan pointed out that at present basketball, swimming, polo, indoor baseball, boxing, wrestling and fencing, the chief winter activities, are carried on at various places such as the Y.M.C.A., Highlanders' Armory, Union, Molson Hall and High School gymnasium, so that their centralizing influence is not felt. Should the gymnasium be built, however, it would undoubtedly become the centre of athletic activities, whether situated on the lower or upper campus. If built on Pine Avenue, however, it would also become the headquarters of the track, football and harrier clubs, whose present accommodations are entirely inadequate.

McLagan pointed out the benefits the football club would derive from having suitable dressing rooms, showers, swimming pool and training quarters. The present dressing rooms reflect sadly on McGill's hospitality to visiting teams, and are altogether unfit to provide the necessary facilities to the large squad of men turning out for football, track and harriers.

It was pointed out, also, that it was very unlikely that the board of governors would feel justified in undertaking the building of both a gymnasium and suitable dressing rooms at the stadium.

As a result of this lengthy debate, a motion was submitted to the effect that the McGill Athletic Association place itself on record as favoring, in the interest of athletic activities at McGill, that the new gymnasium be erected in Macdonald Park, adjacent to the stadium.

Hamilton requested that the presidents of all clubs make certain that eligibility forms are filled out for every man taking part in league competitions. A great deal of trouble arises when men are played who have not filled out these forms, and in future men must do so before competing in any games.

A committee was formed consisting of J. C. Flanagan, D. B. Tees and President Hamilton to revise the constitution of the Athletic Association. This work will be carried out in the near future, and will principally affect athletic awards.

The B.W. & F. requested a grant for the repairing of wrestling mats, which was granted.

H. Wilson, Sci. '24, was granted permission to play basketball with the Argonaut team of the Junior City League.

The presidents of all athletic clubs are asked to submit information regarding games, plans, practices, etc., to the Daily in order that proper prominence may be given athletic competition around McGill through the best medium possible.

ALAS!

He sat stony-faced in his little attic room with the falling snow sitting in through the chinks of the window-frame. All about him was desolation. For days he had not eaten even a crust of bread, and now he sat with his elbows on his knees, his starved grey face robbing them of their clenched fists. From time to time a low, half-strangled moan escaped from his thin lips. Then with a harsh cry he staggered to his feet, tottering as he rose. He was a Junior. He had forgotten to have his picture taken at the Photograph studios at the corner of St. Catherine and St. Matthew Streets, and now his mangled conscience would not let him rest. Beside him in a livid heap lay the huddled, desolate form of his room-mate, also a Junior, he had forgotten for days past to fill out the biography-form given him by his class representative. But let us draw a curtain over this horrid scene.

BASKETBALL

There will be no more Junior and Intermediate basketball practices until Monday, Jan. 23, as Molson Hall is being used for Arts examinations.

Junior "C" play Engineers at Molson Hall, Wednesday, Jan. 11, at 7:45 sharp.

Junior "A" play M.A.A.A. at Peel St. Wednesday, Jan. 11, 7:30 sharp.

Intermediate "B" play Victoria at Molson Hall, Wednesday, Jan. 11, at 8:45 p.m.

Intermediate "A" play Central "Y" there, Wednesday, Jan. 11, at 7:30 p.m. sharp.

Junior "C" play Y.M.H.A. there Saturday, Jan. 14, at 8.

Junior "A" play Central "Y" at Y.M.C.A. Jan. 14, 8 p.m.

Intermediate "A" play Highlanders there on Saturday, Jan. 14, 8 p.m.

PLAYERS' CLUB

There will be a general meeting of the Players' Club next Monday, January 16th, at 5 p.m. sharp, in the reading room of Stratheona Hall. After Miss Marie Lohr has addressed the meeting there will be some questions and suggestions to be dealt with. All members are strongly advised to be present if possible as in addition to what Miss Lohr has to say to the club, there will be important business which can only be dealt with properly if a great majority of the club are present.

INTERESTING MEETING OF OSLER SOC.

Medicos in Regular Session at Prof. Whitnall's Residence

TWO PAPERS

Alward and Tidmarsh Read Instructive Papers

The regular monthly meeting of the Osler Society was held at Professor Whitnall's residence on Monday evening. The guests of the evening were Dean Finley, Professors Chipman and Oertel.

After the preliminary business two excellent papers were read—one on "Egyptian Medicine" by H. C. Alward and one on "Quackery" by C. J. Tidmarsh.

Mr. Alward dealt with first, a brief outline of the history of Egypt from the 1st Dynasty, the line of rulers governing successively, about 4400 B.C. down to the comparatively modern time when Egypt was taken over as a Roman province by Octavianus, thus terminating Cleopatra's disastrous reign. A description of the finding of the Rosetta Stone, followed, and mention was made of its translator, J. F. Champollion, who since 1802, when he was only eleven years old, devoted all his energies wholeheartedly to the solution of this Egyptian puzzle, by wide linguistic and historical studies.

In 1822 he was able to make many equations between the characters on the stone. His progress continued unchecked and before the end of the year the connection of ancient Egyptian and Coptic the popular language of early Christian Egypt, was clearly established. Mention was made also, in this connection, to Dr. Thomas Young (1773-1829), this brilliant Englishman of Science, who did so much towards laying the foundations for the translation of the Rosetta Stone.

Egyptian medical procedure and treatment was contained in the sacred or Hermetic Books of Thoth, the moon god, who was the special deity of medicine. To deviate from the recipes of the sacred books was regarded as so dangerous that the physician who did so, and whose patient died, was himself punished with death. If, however, the patient died under treatment given according to the sacred book, the physician was not held responsible. Public hygiene and sanitation were established upon a remarkably thorough scale.

The physicians all belonged to the priesthood in whose hands all learning was entrusted. Some practised the therapeutic part of their medicine, counteracting charms by prayers, and to the interpretation of the dreams of the sick who sought aid in the temples. Other practised their art simply using natural means.

Their knowledge of Anatomy and Physiology was very hazy, as it was considered a sacrilege to open the human body. They thought that illness was due chiefly to overeating or worms. Mysticism placed the various parts of the body under the domain of certain deities and these parts were subject to the baleful influence of evil spirits. Little is known of Egyptian surgery, but there is ground for the belief that in this they achieved much. Obstetric medicine lay in the hands of midwives.

The Ebers Papyrus throws the greatest amount of light on their medical knowledge. It was obtained by Ebers in 1872 after it had lain between the legs of a mummy for nearly 4000 years. It contains a description of a large proportion of the diseases known to modern medical science. Not only diseases producing suffering to mankind claimed the Physicians' care in those days, but he had also to consider the toilet. Seventy-four prescriptions pertain alone to hair washes, dyes and oils. Over seven hundred different substances from the animal, vegetable and mineral kingdom are mentioned, with their action and merits.

The paper terminated with a description of the illness, death and embalming of an Egyptian official.

Mr. Tidmarsh commenced with a definition of quackery and then enumerated some of the more important causes. These were:—first, man's primeval instinct to live, as expressed in his desire to be free of all pain and to enjoy all ways, the vigor of youth. —Second, religion. Quackery always flourishes in an atmosphere of superstition, and the mystical charm, the origin of which, in charms, spells, and amulets, goes as far back as the beginning of human history. Third—cranks who prefer loud, confident, statements to the honest and cautious efforts of science. Fourth—the uncertainty of medicine, which appears much greater than it really is to the superficial observer who sees the failures of medicine but knows nothing of its successes. Fifth—the boundless field of human credulity.

Mr. Tidmarsh then dealt briefly with the history of quackery, pointing out that until some legal qualification for the practice of medicine was demanded, the dividing line between the regular practitioner and the quack, is very indistinct. In Greece and Rome there were no regulations and quackery flourished like a foul weed, the Greek period giving rise to the "professors of physical culture" and the herbalist. In the early Middle Ages medicine was in the hands of priests and illiterate quacks, but in the 14th Century the University of Paris endeavored to suppress quackery by sentences of excommunication on offenders.

AMBITIOUS GUNMAN MENACE TO MEDICO

Dental Grad. Brings Relief to Victim's Dental Organ

On the evening of January 9th at about ten o'clock, a well known member of Med. '23 while coming up University St. near St. Catherine with a co-ed on his arm was accosted by a man, presumably a beggar, who politely requested him to "throw up his mitts." On refusing he was dealt a blow on the mouth which removed a front tooth and likewise stunned him. Due to the co-ed's screams, however, the would-be foot pad discreetly vanished.

A graduate of Dent. '21, residing at 364 University St., who was then leaving his office, immediately administered relief to the broken dental organ. The bashful Romeo, who was not seriously injured, refused to divulge his name beyond admitting that he was a member of Med. '23.

Says a co-ed: "Queen Elizabeth was a wonderful woman; she could lie beautifully."

ers. This had little effect. During this period families of quacks specialized in one operation and from Louis XI to the middle of the 18th Century, the Calot family operated for lithotomy and were operators to the Kings of France.

The 18th and 19th Centuries were reviewed by considering the lives of notable quacks—Sir William Acland, first a humble tailor and then an "oculist," to Queen Anne—the Chevalier Taylor a mountebank eye doctor, Joshua Ward inventor of the famous Wards Drugs and Pills who was exempted by name from the operation of the Apothecaries' Act passed in 1748—Joanna Stephens whom the English Parliament paid £5000, for the formula of her "cure" for stone—Elisha Perkins famous for the metallic tractors he invented,—Count Cogliostro made famous in Alexander Dumas—"The memoirs of a Physician" and finally John St. John Long—an artists' studio assistant who set out to cure tuberculosis. His annual income amounted to £65,000, but his cure when known was found to consist of turpentine, acetic acid and egg yolk.

M. Tidmarsh concluded his paper by referring to the prevalence of quackery at the present time and the need for a determined effort to suppress it.

Dean Finley and Prof. Oertel spoke briefly on the value of the Society and expressed the hope that it would stimulate interest among all medical students in the subjects discussed.
